

# SafeMobile® Mobile Asset Management System Dealer Demonstration Package

We believe that the SafeMobile Mobile Asset Management System is the most flexible, powerful, and easy-to-use Automatic Vehicle Location (AVL) system on the market. But seeing is believing.

So, to make it even easier to show your prospects the flexibility, power, and simplicity of SafeMobile, we're making this special live demonstration system available to authorized SafeMobile dealers.

Once you deploy your demo system, you'll be able to mount units in vehicles of your choosing, and track them using an ordinary Internet-connected PC. Imagine being able to show your prospects where their vehicles are in real time, right in their own offices!

Once they see, they'll believe. CONTACT A.I.R. FOR PRICING INFORMATION

## What you get:

1 SafeMobile® Remote Safety Terminals (RST) (TETRA, GSM or GPRS – please specify\*)

1 Magnetic mount GPS Antennas (dual GPS/GSM antenna available for additional cost).

1 Gateway server (pre-installed server-grade computer with SafeMobile Network Interface Adapter)
